RSPG meeting schedule for 2009

Members of the Radio Spectrum Policy Group are informed herewith of the provisional meeting schedule for 2009.

The schedule has been compiled taking into account expected or probable dates for other related activities, such as RSC, COCOM and TCAM meetings as well as ECC dates.

The current working assumption is that RSPG will meet 3 times in 2009, each lasting one day. RSPG members are reminded that this schedule is dependent on room availability and that, as in the past, ad hoc meetings may be called to discuss particular issues.
